The International Raoul Wallenberg Essay competition

ALAHASSA Nonvikan Karl-Augustt

December 29, 2013

Raoul Wallenberg

Topic :

How, through your actions, you can inspire acts of courage, tolerance and unselfishness in the world?

Title :

My devotion for Peace and Children'Thriving

Introduction

Raoul Wallenberg was born in Stockholm in 1912. In summer 1944, the young businessman voluntarily went to war-torn Hungary as a diplomat[Tanja Schult, 2010]. Wallenberg's actions admonishe forever our conscience to ponder the choices we make in daily life[Tanja Schult, 2009]. He is widely celebrated for his great efforts to rescue tens of thousands Jews in Nazi-occupied Hungary during the Holocaust from Hungarian Fascists and the Nazis during the later stages of World War II. Unfortunately, what happened to him remains unrevealeted. Raoul Wallenberg saved the lives of great scientists: Miklós Bodánszky, Margaret Demény, Lars Ernster, Francis Körösy, Gabor Somorjai and of thousands of others.

Consider how many Raoul Wallenberg's life will appear fresh and timely to new actors, how many will serve as philosophic foundations for currently popular concepts. Raoul Wallenberg's espousal of necessary sacrifices to change Jews'living conditions foreshadows and inspires this script. Affording to become an another Raoul Wallenberg for our century, I'll promptly bring :

Faith for Palestinians and Israelis, because war isn't the right solution

Palestinians simply want their own states and Israeli Arabs are just willing to equality. "In the international community, Israel is the only country whose right to exists is still debated. Closer to home, many Arab leaders continue to call for its destruction. Inside its borders, Israel's own Arab population grows ever more hostile. And now, countless Jews within Israel and around the world have begun to lose faith in the very idea of a Jewish state. Can Israel weather these challenges?"[Daniel Gordis, 2010]. There is only one way to overcome the battle of war, that's to make Israeli Arabs, Muslims, and the International community accept what many Israelis and American Jews are loath to confront: difference and uniqueness. We must learn to live together as brothers or we will perish together as fools[a]. Jews and Arabs are strong together, and instead of finding desperately a way to separate them (what appears almost impossible,), I'll fight for the sensibilisation, because in fact, they must get awarness of common fate. History prove that hate brings violence, deep weakness and unfinished destruction. Finally, I'll combat to protect Jewish and save Jews from its hate-filled demaguoges.

[a]Martin Luther King.

Help for philippines'children

Human kind falls down in discomfort when confronting natural disaster struggles. We are'nt truly distant to be completely merged into it, parsing the subject and face to global warming. In Philippines, natural disasters are a dime a dozen, and we can make a difference by just a little attention to what is going overthere. When roughly one third of the food produced in the world for human consumption every year — approximately 1.3 billion tonnes — gets lost or wasted[UNEP, 2009], many filipinos are dying from hunger and extreme poverty.

These children just need a hand to hold and a heart to accept them. They need not only compassion and kindness, but charity and assistance. I'll act to save philippines'children from Typhoon Haiyan "Yolanda" disaster relief. Current estimates indicate over 10,000 people lost their lives in the area of Tacloban, Leyte, alone.

Additional Cumulative Interest on Past Pentagon and State/USAID War Appropriations **FY2001-2013** by 2053[1] is estimated to be superior to $7000 billion[Watson Institute, 2011]. This's worth a lot to be sufficient to offer necessary education to humanity, to build family model children's homes[2], to eradicate human traffiking in the philippines, to banish sexual abuses of filipinos'children, and to rescue orphans and street children from the streets of Manila and surrounding areas.

It's worth too so much to assist in practical outreach to the poorest of the poor, and to achieve a big program titled "A parent for each street child" to integrate each child in need[a].

[a]even beggars children from Senegal

Help and protection for Syrian's Children

We are all guilty of many erros and faults, and strongly concerned by the realm of war. Fame and money thirsting can really wait, but the life of a child can not. 4 million Syrian children are suffering as a result of a horrific conflict – one of the worst humanitarian crises of our time - which is now stretching into its third year. Two million people have fled to neighboring countries, but many more remain in dire need of assistance. While the risks to children'health grow, they don't any more have access to healthcare. Deeply affected[3], people have any opportunity to satisfy easily their basical needs. Violence from war has almost destroyed their families and, may be inherited or acquired through a long period, it would be impossible to live overthere without fear. These unsanitary conditions are contributing to the growing number of cases of children suffering diarrhoea – the biggest killer of children globally. In Syria, war has induced people in a horrific homeless life, nearly 3 million buildings has been damaged or destroyed[Save the children, 2013]. I wonder the response to a troubling question: where is the love? In big deception that love seems disappeared on the planet, I'll inspire necessary light to break darkness bearing on humanity.

Not only by allowing people reach the freedom to share their own thoughts and to give their voice, but too, by the choice to use my status and influence to raise the voice of those who have no voice. Education we've gotten the chance to receive give us unique status and unique responsibility: to be Raoul Wallenberg for the 21th century. In this way, I denounce and condemn the underground gun markets, illegal firearms, and more importantly, the business of war.

I say no to maltreatment and abuses in the world. There isn't any hesitation about it: if I reach the International Raoul Wallenberg Essay competition'prize, I address demand to jurys to use it automatically like donation to contribute to save children from danger in Syria[a]. Let's recognise that, without peace, for children in Syria there will only be more death, and more destruction[Save the children, 2013]. I'll take the lead to manifest for peace, because I choose to identify not only with the powerful but with the powerless. Political leaders must retain the ability to imagine themselves into the life of those who do not have their advantages.

[a]See donation page at *www.savethechildren.org*.

Conclusion

We do not need magic to transform our world, we carry all the power we need inside of us already, we have the power to imagine better. Subsequently, we can create a more equitable and prosperous planet. So I'll stand for what is right in this fast-paced world, and even If I stand alone[4], I'll never give up. The World suffers a lot not because of the violence of bad people, but because of the silence of good people[5].

[1]Estimated using a Solow model to model feedbacks from deficit-financed government defense spending into current GDP, the capital stock, and interest rates. The severity of the burden of war-related interest payments will depend on many factors, not least, the overall future health of the U.S. economy, interest rates, government fiscal policy, and national saving.

[2]Operating an orphanage model that more reflects a community of families than an institution.

[3]Not only Syrian citizens, but non-nationals who were living as refugees in Syria too.

[4]Because there is often a limit to a belief in human goodness.

[5]Napoléon's thoughts
